EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title was changed to:

METHOD OF MIXING FLUID IN F-STYLE CONTAINER

2. The following is an examiner's statement of reasons for allowance: mixing containers by clamping the container to a table and vibrating the table using an electric motor is well known, for example from Hellenberg (US 5,268,620). While placing an F-style container in a box with the top and bottom of the F-style container in respective recesses of respective inserts known from Jaycox (US 5,590,786), neither of these references renders obvious the claimed invention of vibrating the fluid containing F-style container while within a bucket snugly received by top and bottom inserts as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
